## Expert Talk on Connecting with the Healing Powers of Nature (Pre-recorded)

### Series 3: Nature. Inspiration. Positivity

Most cancer patients have been staying at home during the pandemic and as a result, they may feel low in energy, anxious or stressed. But there is a way to help feel more relaxed, focused and healthy with the help of outdoor nature.

We invited Ms Claire Elouard from France to share how you can refresh yourself at home or in the breathtaking natural beauty of the outdoors. Breathing in fresh air in an open space of a park can help us feel more at peace, confident and in harmony with our surroundings. We will also do experiential exercises together during this talk.

Date: 6 May (Thu) 2:30-4:00pm

Language: English with Cantonese translation

Important note: Please find a quiet and relaxing space when joining this talk.
